Loan Description/History

This loan is a stand-alone note, which was originated on January 3, 2000 in the amount of \$30,000,000 with a current principal balance of \$29,785,318 amortizing on a 25 year schedule. Interest is fixed to maturity in February, 2010. The monthly payment is \$237,538.26. The loan was funded to repay a bridge loan provided for the recent refurbishment of the site.

Collateral Description

Situated on a 4.2 acre island in a convenient location, this site is easily accessible by regularly scheduled water transport. Assembly was completed in 1886, having been shipped over in 214 crates aboard the French Frigate Isere. Designed by Frederci-Auguste Bartholdi, and made of steel, copper and concrete, the statue now features an elevator, gift shop, museum and lots of stairs. The structure is 151 feet tall, and weighs over 225 tons. Renovations were completed between 1984 and 1986. Excellent views are provided from the 25 windows on the upper floors.

Tax Issues/Escrows

The National Park Service has kept taxes current and paid timely. An abatement was recently filed, citing the assessment considerably exceeding the recent appraisal.

LTV/DSC

Based upon the recent appraisal, loan-to-value is 80%. The 11.3% cap utilized was based in part upon the estimated seasonality of the cash pow if admissions were to be charged at the site (the Park Service does not charge an admission fee). Based upon an estimated fee of \$1.00 and 4.2 million visitors per year, with a 25% expense ratio, NOI is \$3,150,000. Debt service annually is \$2,850,456 resulting in a 1.105x debt service coverage, on an estimated basis.

Payment History

Paid as agreed, with all payments received via wire prior to the due date.

Sponsor Discussion

The National Park Service operates 373 parks throughout the United States, covering over 83 million acres, including Yellowstone, Grand Canyon National Park, the Boston Harbor Islands, and the Whitehouse. The Service has over 15,000 full-time employees, and an operating budget of approximately \$1.7 billion.

The information above has been compiled by DebtX on a best efforts basis No representations or warranties are made as to its accuracy.

Vacancy Trend

Boston Office Market Overview

Boston's large, 111 million-square-foot office sector is one of the nation's premier office markets. And, economic slowing and dot.com attrition notwithstanding, it is also one of the nation's tightest. While construction is active, space has been quickly absorbed, and high levels of preleasing are reported for developing properties. Vacancy is also low. Rents are high and expected to go higher as demand increases. Per first-quarter 2000, Reis estimates a vacancy rate of 3.6%, down slightly from 4.5% a year earlier. That rate is forecast to reach 5.7% per year-end 2001, then reach the 7% range the following years as rental growth recedes from its recent heights. In a market this large, and competitive, these increased rates do not translate into a general softening of demand. Rents are continuing their upward trend, amidst reports of "sticker shock" by industry observers. Per first quarter 2001, Reis estimates asking and effective rents averaging \$44.54 psf and \$42.70, respectively: each up over 20% from one year earlier. Asking and effective rents are projected to increase a more modest 3% per year over the next three years.
